

FRUIT AND VEGETABLES

COMPANY

Founded in 1988, in the Middle São Francisco, in Petrolina-PE, the Grupo SB Fruits began its history with the irrigated cultivation of grapes and other crops, combining family tradition and technology applied to the semi-arid region. Our purpose is to produce fruit of excellence through responsible water management, varietal innovation and respect for people and the environment.

We consistently serve the national and international markets, supplying the largest supermarket chains that value taste, freshness and traceability. Recognized worldwide, the Grupo SB Fruits is proud of its exclusive varieties and its continuous ability to innovate, consolidating itself as a benchmark for quality, technology and sustainability in fruit growing.

PRODUCTS

NCM 0804.50.20

Produced in the heart of the São Francisco Valley, Grupo SB Fruits' grapes combine technology, tradition and the unique flavor of the semi-arid northeast. Grown under controlled irrigation and sustainable management, our premium grapes offer superior quality from field to table, reflecting our family's care and commitment to excellence and respect for nature.

Among the exclusive varieties we produce are IFG Seven (Cotton Candy), Sheegene 2 (Timpson), Arra Sweeties (Arra 15), IFG Eleven (Sugar Crisp) and BRS Vitória, guaranteeing sweetness, freshness and crispness in every bunch.

Production is carried out with strict traceability control and differentiated packaging standards, ensuring regular supply and total transparency for the consumer. The unique climate of the São Francisco Valley, combined with precision irrigation technology and careful management, produces grapes with an intense flavor, balanced sweetness and crunchy texture, which conquer the national and international markets. With its family commitment, continuous innovation and respect for the environment, the SB Fruits Group has established itself as a benchmark for quality, reliability and tradition in the production of premium grapes.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

The Grupo SB Fruits currently has five varieties of premium grapes, with a production capacity of 500 tons/year, which can be expanded by up to 30% during the harvest period to meet market demand.
