

COMPANY

Founded in 2003, Realizar Alliance supplies walnuts and chestnuts to the Brazilian and international markets.

An exporter of natural foods, mainly Brazil nuts and macadamia nuts, we supply healthy and sustainable products.

In the foreign market, we export to many countries on five continents, including Europe, the United States, China, Hong Kong, Russia, Australia, New Zealand, South Africa, South Korea, among others.

PRODUCTS

Macadamia nuts and Brazil nuts are very healthy. Brazil nuts in particular are rich in selenium.

As well as being healthy, our nuts are products that promote sustainability, especially Brazil nuts, which come from the Amazon rainforest. It is an extractive crop that generates income and employment for the forest community.

We also have nuts with chocolate, which combine health with an indescribable taste. Our chocolate is handmade and made only with cocoa butter. There is no added hydrogenated fat or other unhealthy fats. Cocoa butter enhances the chocolate's flavor and gives it a melt-in-your-mouth experience.
