

COFFEE

COMPANY

COOPERNOVARUM is a cooperative in Nova Resende, Minas Gerais. We were born from the need of the producer to have the guarantee that their product would be marketed at a fair price.

Today we are FAIRTRADE certified, the certificate values coffee, because it establishes a minimum price for which coffee should be sold and is a means to insert the coffee of our small producers in the international market. Bringing growth to our rural communities, preserving the environment, caring for our workers and the well-being of our community.

PRODUCTS

NCM 09.01.11.10

The production base in our southern Minas Gerais micro region, a region of almost 150 municipalities, is coffee. In a territory mostly composed of the sum of small properties, we have producer families who live in communities and of course this provides us with the good relationship between these families. In this union, the unified vision with sustainable origin gave rise to processes that improve the quality of life, always with guidance so that everything happens within auditable norms. The sum of all these processes generates the product globally recognized, a noble coffee, sustainable and full of history.
