

HONEY, PROPOLIS AND DERIVATIVES

COMPANY

Founded in 1998 in the municipality of Dom Eliseu – PA, Apis Dom was created with the purpose of offering pure, high-quality honey produced from wild bees. The company operates throughout the production chain, from beekeeping to the processing and packaging of Apis mellifera honey, making the product available in tubes, jars, and sachets. Registered with the SIF (Federal Inspection Service), the brand sells in Pará and several other states, serving supermarkets, pharmacies, and specialized stores.

A pioneer in beekeeping in the region, Apis Dom stands out for its rigorous control of each stage of the process, ensuring traceability, safety, and quality. The meticulous work from the creation and management of the apiaries to the final distribution guarantees a natural, reliable, and recognized product in the market.

PRODUCTS

NCM 0409.00.00

Our product is 100% pure and natural honey from Apis mellifera bees, extracted from our own hives and packaged under strict quality control. It has a characteristic aroma and flavor, being completely free of additives and preservatives, fully preserving its natural nutrients. It is available in 270g, 500g and 1000g plastic tubes, as well as practical sachets for individual consumption. Ideal for domestic, commercial or institutional use, Apis Dom honey guarantees purity, quality and origin, with inspection by the Federal Inspection Service (SIF). Our own production ensures complete traceability and compliance with self-control programs.

Considered one of the purest foods in nature, honey is a naturally sweet substance produced by bees from flower nectar. Its composition can vary according to factors such as botanical origin, climatic conditions, soil, flowering period, bee species and management practices before and after harvesting, elements that directly influence its color, aroma and flavor.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:
