

FRUIT AND VEGETABLES

COMPANY

Fruttecc was founded in 1996, in Mato Grosso do Sul, with the aim of offering agronomic consultancy specializing in fruit growing. Since then, it has established itself as a benchmark in the sector, supporting rural producers with technology, innovation and technical knowledge at all stages of production.

With a track record marked by experience and credibility, Fruttecc contributes to the sustainable development of regional fruit growing, promoting greater productivity, quality and competitiveness in the market.

PRODUCTS

With over 20 years' experience in the sector, we work with producers in Brazil and Angola, working with tropical and temperate fruits. Since 2010, pineapple has become our specialty, and from 2020 we will expand our portfolio with watermelon, figs and pink Niagara grapes.

Our partners guarantee fruit of excellent quality, with a high sugar content, food safety and palletized packaging that is accepted on the international market.

The highlight is pineapple of the Smooth Cayenne and Pérola varieties:

Smooth Cayenne: thornless, cylindrical, 1.5-2.5 kg, yellow skin, yellow flesh, 14° Brix.

Pérola: exclusive to Brazil, with thorns on the crown, 1.5-1.8 kg, green skin, white flesh, low acidity and 14° Brix.

The fruit is packed in boxes of 4 to 5 units (11 kg), preserving the appearance, flavor and sweetness that delight consumers.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Currently, 300,000 pineapple fruits are in production, with the goal of reaching 1 million a year by 2027. In November 2025 there will be a supply of 15,000 fruits of the Pérola variety and, in February 2026, 30,000 of the Smooth Cayenne variety. From November 2026, annual production will be 100,000 fruits of the two varieties.
