COMPANY

Based in Bauru (Sao Paulo), Jaguacy Brasil specializes in the production and sales of Avocados in Brazil. The company has been in the Avocado market for over 30 years and possesses more than 500 hectares of its own production.

It's a pioneer in the field and specializes in the production and sales of Avocado in Brazil and abroad.

The Avocado is a variety of the Brazilian "abacate". The HASS type, which is known as Avocado in Brazil, first appeared in California. Among some of the aspects that differentiate the Avocado from abacate, the Avocado boasts a high concentration of vitamins, minerals, proteins, and fibers.

PRODUCTS

Additionally, given its flavor, texture, nutritional value, and versatility for cooking, the Avocado is a powerful asset for healthy eating. The fruit is beneficial for the heart, aging, cramps, impotence, and it balances cholesterol while fighting free radicals.

Apart from growing fresh Avocados, Jaguacy also specialized in the production of Avocado-based by-products, including:

**Frozen Avocado Pulp;
Avocado Oil, and
ready-made and fresh Guacamole..**
