

## COMPANY

Since 2007, COOPERATIVA DE SUCOS MONTE VÊNETO has dedicated itself exclusively to the production of high-quality whole juices, using advanced technology and its own structure to guarantee the natural extraction and preservation of its products.

With carefully selected raw materials and a diversified range of products, the cooperative is winning over demanding markets and strengthening family farming in the Serra Gaúcha, Brazil's main region of Italian colonization. Through its juices, the company brings together histories, cultures and generations, offering consumers tradition, authenticity and excellence in each product.

## PRODUCTS

Our company produces 100% natural juices, made exclusively from fresh fruit, with no added sugar, water, colorings or preservatives, guaranteeing the preservation of the authentic taste and original nutrients of each fruit. Each batch is carefully crafted to offer a unique sensory experience, combining natural freshness, aroma and texture. We have

national and international certifications that ensure not only food quality and safety, but also compliance with the strictest standards in the sector, conveying confidence to distributors, retailers and end consumers.

Our commitment is to deliver products that combine health, flavor and authenticity, catering to a public that values clean, nutritious and high standard food. Thus, each sip provides pleasure, well-being and the certainty of consuming a pure, natural and distinctive juice, reflecting our dedication to excellence and respect for the fruit in its purest state.

## DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Our company has a large production capacity and is also able to expand production significantly with the same plant, simply by installing new production shifts. Planning for demand from large customers is important so that we can organize the production base, ensuring quality fruit to meet the need.
