

HONEY AND BEE DERIVATIVES

NCM 04.10.00.00

NCM 04.09.00.00

COMPANY

Established in 1984, the company was born from the work of two passionate beekeepers who were brought together by their desire to produce, bottle and sell honey, propolis and its derivatives, dedicating themselves to the production of organic bee products.

The company is located on the hillsides of the subtropical forest in southern Brazil. Our region boasts a unique microclimate that yields a wide variety of wildflowers and highly active biological pollen, making it a perfect environment for beekeeping.
