PRODUCTS

NCM 0409.00.00

Melero® is a product for bees with stingers or stingless bees (ASF), and has been specifically formulated to INCREASE PRODUCTIVITY during the winter, when bees isolate themselves and feed on their own honey.

Energy supplement enriched with probiotics to help the vital functions of the bees' bodies, thus helping to deposit honey and other co-products, helping to restore, maintain and balance the swarms.

It is a complete food for apis mellifera and meliponas to replace traditional feed.

Packs of 100g, 1Kg and 5Kg Buckets.
