

# FRUIT AND VEGETABLES

## COMPANY

With 7 years in the market, Valexfruit has been building a solid trajectory, based on cooperation, regional development, and the production of high-quality fruits. Our operating model values teamwork, sustainable growth, and a commitment to excellence at every stage of the production process.

Our purpose is to promote the economic and social development of our members by offering quality products and access to sustainable markets, always focusing on customer satisfaction.

## PRODUCTS

NCM 0806.10.00

One of Valexfruit's key differentiators is its democratic management model, formed by the members themselves. Through the Assemblies, we build a space for open dialogue, sharing of ideas, and collective decision-making, strengthening the sense of belonging and responsibility of each member. This participatory management approach ensures transparency, unity, and the constant improvement of our collective endeavor, which grows based on the trust and collaboration of everyone. We specialize in cultivating high-quality table grapes, growing several varieties that stand out in the market, such as Arra 15, Sugar Crisp, Timpson, Itália, Isis, Cherry Crush, Vitória, and Núbia. Each of these grapes is produced with care and dedication, combining sustainable agricultural practices and advanced management techniques that ensure excellent fruit, with flavor, appearance, and durability aligned with international quality standards.

Our commitment goes beyond production: we constantly seek to innovate and improve our processes, valuing teamwork and respect for the environment. Thus, we strengthen the cooperative's competitiveness and contribute to the economic and social development of the São Francisco Valley.
