COMPANY

Xingu Fruit is a fruit pulp industry, whose main product is Açaí. It was founded in 2017 and seeks to offer the essence of these Amazonian fruits, preserving their purity and nutrients and delivering a healthy product to its consumers. The company has all the necessary certifications to be able to introduce its products in the most different markets.

The company takes the culture and the Amazon fruits to Brazil and to the world, through a culture based on relationship, communion, and socialization, preserving the flavor and purity of each fruit and respecting all the chains in the production process.
