COMPANY

In the heart of Brazil, Jalles Machado was born in 1980, fruit of the entrepreneurial spirit of Otávio Lage de Siqueira with the mission of generating more Employment and income for Goianésia-GO, Brazil, city where the company is headquartered. With two facilities in the same city, today we plant dreams and harvest clean, renewable, sustainable energy that is generated with commitment and respect for people and the environment.

Our commitment to sustainability and governance is materialized in several certifications and encourage the creation of a regenerative and organic agriculture.

Today, we are the world's leading organic sugar exporter and have taken our premium quality Organic Sugar to over 20 countries in the world and served the most stringent customers!

PRODUCTS

Itajá Organic Sugar is produced from sugarcane grown according to the strictest organic concepts. This production system excludes the use of fertilizers, pesticides, and growth regulating products. Natural fertilization is based on the use of manure, land rotation, green manure, composting, and biological pest control.

The fundamental principle of organic production is respect for the environment, ensuring greater protection for the water, the soil, and especially for our customers in Brazil and around the world.

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

World leader in the exportation of Organic Sugar.

Organic production is respect for the environment, ensuring greater protection for the water, soil, and especially for our customers.
