

COMPANY

Trivalli connects the diversity of Brazilian agribusiness to the global market with efficiency and technical rigor. Specializing in the export of green coffee, spices, nuts, and peanuts, the company also excels in supplying tropical fruits and frozen fruit pulps.

Our goal is to guarantee high-quality products, combining the best of national production with strategic logistics. We act as a trusted link between producers and the most demanding markets, bringing authentic flavors and top-quality raw materials to the world.

PRODUCTS

Mix of Agro-industrial Products: Coffees, Spices, Nuts and Tropical Fruits.

Describe your product: Trivalli operates in the origination and export of Brazilian food ingredients: green coffee, black pepper, peanuts, cashew nuts, Brazil nuts, ginger, tropical fruits, and frozen pulps. We offer supplier curation, quality standardization, traceability, export documentation, and end-to-end logistics coordination. Our key differentiators are commercial agility, compliance, and technical focus (specifications, data sheets, and samples), as well as partnerships for inspection and quality control. We serve importers, distributors, and industries, connecting Brazil to global markets with security and predictability.

We conduct strategic sourcing with direct curation at the source, selecting coffees, nuts, and spices with high export standards and full traceability. We offer a diversified portfolio that allows you to consolidate different products with a single logistics partner, reducing operational costs. We operate with agility and flexibility, adapting packaging and technical specifications to the demands of markets such as Europe and Asia, guaranteeing the freshness and integrity of the products.

The main NCM codes used are: 09011110 (green coffee), 09012100 (roasted coffee), 08119000 (fruit pulp), 12024100 (peanuts in shell), 12024200 (peanuts without shell), 08012100 (Brazil nuts in shell), 08012200 (Brazil nuts without shell) and 09101100 (ginger).

DETAILS ON PRODUCTION CAPACITY, SEASONALITY AND OTHER CHARACTERISTICS:

Trivalli acts as a strategic export hub, with a scalable capacity of up to 20 containers per month, depending on seasonality and product mix. It features controlled atmosphere storage and partnerships with certified cooperatives, ensuring a continuous supply. It offers the flexibility to meet industrial and commercial demands, with technical specifications, samples, and batch traceability.
