

**JUICES AND PRESERVES  
FROM FRUITS**

## COMPANY

The company was born in Pereiro with Roberto Nogueira in 2008, with the idea of developing local agriculture from Cajá-Umbu and other fruits of the producing families of the region. In 2012, Hermanice Nogueira and João Lima joined the company in order to structure and expand it.

Always focused on the family farming development, sustainability and safe processes, the company has evolved to this day, with certifications and seals (Eurecido, IFS, Kosher, FDA) that prove the quality of its products for the consumer. Today, the company already serves the entire Brazilian northeast and abroad, such as Germany and the United States, and it is planning to expand markets.
