## PRODUCTS

Produced with the best ingredients and free of artificial additives, with healthiness as the main characteristic. Rich in fiber and protein, they have glycoproteins that partially inhibit the absorption of carbohydrates eaten together. Ideal for weight loss diets due to low glycemic index. They contain natural thermogenic substances, vitamins and minerals.

Gluten, lactose and allergen free, they are prepared with Himalayan pink salt. They can be consumed by children, the elderly and people with dietary restrictions. With proteins equivalent to those of animal origin.

### Tucumã burger **NCM 2106.90.90**

Smooth and crunchy texture, thermogenic, rich in omega-3, fat that decreases inflammation and cholesterol, tucumã is also rich in vitamins A, B1 and C, having a high antioxidant power that is responsible for preventing premature aging and strengthening the immune system. Often consumed fresh or in the form of pulp, it is widely used in the northern region of Brazil.

### Açaí Almonds **NCM 2106.90.90**

Firm and flavorful, crunchy on the outside and juicy on the inside, rich in antioxidants, vitamins, iron, polyphenols, anthocyanins, and studies indicate that it has high levels of these antioxidants, such as preventing premature aging and strengthening the immune system.
