

LOUVADA

CRAFT BEER

COMPANY

Our story begins with the union of five partners from Capital Investimentos, united by their passion for quality craft beers. The project took shape with the arrival of the first equipment and tanks, culminating in the inauguration of our first manufacturing unit, with an initial capacity of 10,000 liters and production of Pilsen, APA and Weiss styles, consolidating our presence in the local market.

A special milestone was batch number 1 of Louvada Pilsen, hand-labeled by the partners and their families, symbolizing the beginning of our journey. To strengthen our connection with clients and partners, we hold monthly meetings at the factory, making it a tradition that reflects our culture of celebrating and valuing the artisanal experience.

PRODUCTS

For us, beer is more than a passion, it's devotion. Founded in 2015, our mission is to honor beer culture and bring it to every corner of the country and the world. Today, we have one of the most modern craft breweries in Brazil, distributed across four production units: Cuiabá (MT), Porto Velho (RO), Indaiatuba (SP), and Passos (MG). Our portfolio includes more than 20 labels, both seasonal and permanent, and we produce more than 400,000 liters of beer monthly. We are the only Brazilian brewery certified as Zero Waste and, since 2023, we have started our export operations, beginning in California and expanding to Nevada, Arizona, and Texas, with plans to enter the Florida market.

Our portfolio brings together classic house favorites such as Pilsen, German Pilsner, and Hop Lager, ideal for any occasion. We also offer creative recipes and bolder styles, produced in smaller batches, perfect for those seeking new experiences. Among them are APA, IPA, NEIPA, Double NEIPA, Session IPA, Low, Weiss, Witbier, Gose in different flavors, Vienna, Coffee Pilsen, Porter, Darkside and Barley Wine. In addition, we release limited editions at special times of the year to celebrate special dates, with labels such as Blond Caju (Cashew) and Benedita.
