

COCOA AND CHOCOLATES

COMPANY

A cooperative comprised of medium and small-scale producers. It was founded with the intent to produce high-quality cocoa and derivatives, as well as to protect the Atlantic Forest biome and practice social responsibility. We hope to have our members properly compensated for the products they produce.

One of our missions is to have our products renowned here in Brazil and throughout the rest of the world. We want to transform the way of viewing and thinking about cocoa in our Cacao Region here in Southern Bahia.

PRODUCTS

Our growers produce among the best cocoa beans in Brazil and have been recognized by both the Executive Commission for Cocoa Cultivation Planning (CEPLAC) and rating agencies.

We grow organic or conventional high-quality beans, including an assessment report from the Cacao Innovation Center (CIC), nibs, fine chocolates and cocoa pulp jam.
