

FRUITS AND VEGETABLES

COMPANY

Frutecer has been working in the production and trade of fruit for a little over a decade. Today, the company has highly trained employees and several fruit production areas, and is one of the largest producers of mangoes, grapes, pears, and persimmons in Brazil.

The fruits are grown in several units located in the Nilo Coelho Irrigation Hubs, in the city of Petrolina, in the São Francisco Valley region, in northeastern Brazil.
