

SEEDS

COMPANY

Founded in 2012 by Marcelo Rios with the name known today as BR PAR SEMILLAS, now with the second generation involved in the business, the company intends to continue evolving and expand by selling forage seeds to all of Brazil.

MISSION To play a key role in strengthening Agriculture and expanding Agribusiness. Investing in technology and research involving the production of pasture seeds in an effort to deliver a quality product to the market at competitive prices.

VISION To continually participate in the process of accentuated growth by becoming active in the markets of Bolivia, Paraguay, and Colombia while assessing possible new markets in Central America.

VALUES Maintaining a solid relationship between our suppliers and Customers, overcoming challenges with each harvest, consistently dedicating ourselves to the ongoing improvement of our services while complying with ethics and respect for our customers, partners and the environment.
