

COMPANY

We are a Brazilian company, concerned with nature and with the future of the next generations. We were born from Abdalla Abrão Dagher Neto's curiosity and passion for the bees' life, producing pure honey, and we reached the adult phase with a vast and rich portfolio of products that provide a healthier life in balance with 'fauna and flora'.

With 40 years of history, beekeeping continues to be a pleasure, worked with love and great responsibility to bring to your home, the best products and experiences that help take care of you.

PRODUCTS

We produce, with state-of-the-art technology in two manufacturing units, in Franca, in the countryside of São Paulo, more than ten lines among honey, propolis, collagens, supplements, and products for weight loss, performance, and immunity.

We value the search for in natura and 100% pure raw materials, always concerned with bringing health, well-being, and quality of life to you and your family, but aware of promoting a harmonic and peaceful coexistence with the environment.

Here at Fauna & Flora, people inspire and motivate us to always do our best, thinking about taking care of our body, soul, and planet. And you, client friend, are part of this achievement.

Honey, Propolis Extract, Vitamins, Instant, Collagens, Functional Foods, Tablets, Supplements, and Encapsulated.

Honey: We provide PURE HONEY from different blooms.
Propolis Extract: Standardized (Green (Verdropolis), Brown and Red).
Vitamins, Instant, Collagens, Functional Foods, Tablets, Supplements and Encapsulated - Line with more than 100 products, offering natural and healthy products.
